Company Core Business

Products and Services

Gouden Electrical and Instrumentation Zambia Ltd specializes in the Engineering, Procurement, Construction / Project Management Environment specializing in the following areas:

Electrical:

Electrical capability includes the entire Spectrum from Low, Medium and High Voltages up to 275kv. The Design, Supply and Installation are as follows but not limited to

- Supply and Install of Electrical Cables from Low to High Voltages
- Supply and Install of Electrical Terminations and Joints from Low to High Voltages
- Supply and Install of Electrical Distribution Boards including Certificate of Compliance (COC)
- Supply and Install of Hazardous Electrical Equipment on Zone Classification Areas
- Supply and Install of Field Isolators, Stop/Start Stations, or any Electrical Field Panels
- Supply and Install of Motor Control Centres (MCC's) and Sub-Station
- Supply and Install of Small Lights to High Mast and Street Lights.
- Supply and Install of any form of Lighting and Small Power
- Supply and Install of Earthing and Lightning Protection
- Supply and Install of Renewable Energy Equipment
- Supply and Install of Low to High Voltage Transformers
- Supply and Install of Medium Voltage Testing E.g., Speed Trace Testing, etc.
- Supply Maintenance Personnel for day to day Maintenance and Breakdowns.
- Supply, Manufacture and Install of light Steel Structures for Cables, Steel Frames for Panels, etc.

INNOMOTICS

Approved Partner

Control:

Control capability includes the entire Spectrum such as PLC and DCS Systems. The Design, Supply and Installation are as follows but not limited to

- Supply and Install of Programmable Logic Controller (PLC's) Systems
- Supply and Install of Distributed Control System (DCS's) Systems
- Supply and Install of Remote Input/Output (RIO) Systems
- Assisting with the Interface Commissioning from Control Systems to the Field Instruments
- Supply Maintenance Personnel for day to day Maintenance and Breakdowns.
- Supply, Manufacture and Install of light Steel Structures for Control Systems, Steel Frames for Panels, etc.

Instrumentation:

Instrumentation capability includes the entire Spectrum such as Instrument loops e.g. Temperature, Pressure and Flow. The Design, Supply and Installation are as follows but not limited to

- Supply and Install of Instrumentation Cables.
- Supply and Install of Instrumentation Terminations.
- Supply and Install of Instrumentation Field Junction Panels.
- Supply and Install of Hazardous Instrumentation Equipment on Zone Classification Areas
- Supply and Install of Instruments that measures a physical quantity such as Flow, Temperature, Level, Distance, Angle, or Pressure.
- Supply Maintenance Personnel for day to day Maintenance and Breakdowns.
- Supply, Manufacture and Install of light Steel Structures for Cables, Steel Frames for Panels, etc.

Quality management System

Gouden Electrical and Instrumentation Zambia Ltd Quality Management System have identified the Resources, Structure, Levels of Responsibility and Authority to ensure that the documented Standard Procedures achieve their intended goals of Protection of the Employees and Sub-Contractors Health, Safety requirements, the Environment, Client satisfaction of the services provided, Compliance to the Quality Policy, Company Objectives and Recognition of Compliance to ISO 9001 /14001 & 45001

The Standard Procedures, Standard Operational Procedures and Documentation have been structured and adapted to control the company's particular type of operations, the environment within which they operate services, the training / competency of their personnel and the uniqueness of the scope of business within which the company operates.

The Quality Management System is categorized into four definite areas: -

- Management Responsibility and Review.
- Resource Management
- Product Realization
- Measurement, Analysis, and Improvement

Please note that Gouden Electrical and Instrumentation Zambia Ltd is ISO compliant, but not yet certified.

Advantages and Benefits

Gouden Electrical and Instrumentation Zambia Ltd Advantages Relative to Competing Products and Services

Gouden's biggest advantage over our opposition is the fact that the company offers the full spectrum namely Electrical, Control, Instrumentation and Security (Building Technology) (ECI&S). Most of our opposition only provides for one or two of these services. Gouden Electrical and Instrumentation Zambia Ltd can offer everything in one package for clients.

Other benefits include the following

- Selection and Utilization of Highly Skilled Artisans.
- Artisans are Qualified and Trained to enhance skills and competency.
- Subordinate Managers are qualified to comply with industry standards, with relevant qualifications in the field of expertise required.
- Installation / Maintenance teams who are familiar with Safety, Quality, and Specifications Standards.
- Senior Management is visible and involved in all projects and maintenance to ensure that Safety, Quality, and Environmental Standards are adhered to.
- Senior Management frequently liaise with Stakeholders to ensure that all goals are accomplished e.g. HSE, Progress, Schedule, Budget, etc.

Quality Policy Manual

Gouden Electrical and Instrumentation Zambia Ltd recognizes that providing products and services of the highest possible quality is a fundamental requirement for the future well-being of our business and the relationship between our internal and external customers. Our goal is to ensure that through established standards and measurements, the level of quality at Gouden Electrical and Instrumentation Zambia Ltd matches or exceeds our customer's expectations. To accomplish this goal, we are committed to delivering, and continually striving to improve the quality, products, and services. We are also committed to deliver our products and services on time and within budget, thereby achieving a high degree of customer satisfaction.

Gouden Electrical and Instrumentation Zambia Ltd Policy Manual consists of the following policies and can be made available on request

- Quality Policy
- SHEQ Mission Statement
- No Smoking Policy
- Anti Bribery & Corruption Policy
- Electronic & Internal Communications Policy
- HIV / AIDS Policy
- Quality Objectives
- Minimum Age for Employment Policy
- SHEQ Policy
- Transportation Policy
- Employment Equity Policy
- Change Management Policy
- Drug-Free Workplace Policy
- HIV/AIDS Policy Statement
- Sexual Harassment Policy
- Prohibiting Forced Labour Policy

Social Plan

GoudenElectrical and Instrumentation implement social plans to address key performance indicators (KPIs) such as

- local employment.
- local procurement.
- skills development.
- corporate social investment.

As part of our commitment to sustainable and responsible business practices. These social plans are designed to foster positive relationships with the local communities, ensuring that the benefits of mining operations extend beyond the company itself. By focusing on local employment, procurement, and skills development, Gouden E&I can help strengthen the local economy and workforce. Corporate social investment initiatives further support the community's well-being by funding education, healthcare, infrastructure, and other vital services. Ultimately, these social plans not only enhance the company's reputation and social license to operate but also contribute to long-term, shared prosperity for both the company and the community.
